# Work sectors

A research company specialized in analytics, research and consulting. provides services in three sectors:

# Our Team

# Why INDICATORS

Team specialized in research methodologies

Professional data collection team

Data quality control

Understanding of the Syrian context and countries face crisis

Expert analytics team

High coordination with the client and the implementing partners

Implementing the general data protection regulation (GDPR)

# Recommendations

**Florence Minery**  
Deputy Director,  
CFI Organization

We contracted with INDICATORS to provide a final assessment of MAKANATE project in Iraq and Yemen. We are extremely pleased with the quality of the services provided.

We would like to thank all team members for their efforts and dedication to achieve satisfactory work.

We are confident to recommend INDICATORS to others in need for similar projects.

**Mohammed Ezaldeen**  
Quality Control Manager

INDICATORS in cooperation with us, worked on the implementation of two needs assessments of Syrians refugees in Turkey. We would like to thank the INDICATORS team for their contribution to completing the work within the agreed timetable and with a high quality that reflects their experience in research.

**Ceren Baysan**  
Assistant Professor,  
University of Toronto

INDICATORS team have collected data and shared their expertise for our projects. I have found them to be professional, communicative, meticulous, and transparent. Moreover, they are proactive in contributing their knowledge and helping refine our research ideas.

I enthusiastically recommend working with INDICATORS.
